Check the roof and exterior areas for sparks and embers as well as the attic and throughout the house for hidden burning sparks and embers. Not all residents will have power; PG&E is working as quickly as possible to restore power in the entire area.

When picking up animals from a shelter, please have a photo ID. Upon returning home make sure you have food, water, and proper containment for your animals. High temperatures and fire damage can cause normal household items to become hazardous to you and your animals. Make sure your property is safe before returning home.
